Show Down at Show Time!

Seven top speakers were selected for a most unusual show-down with a small band of experienced meeting planners. It was a winner-take-all match-up that lasted a mere seven minutes.

Each speaker selected seven minutes of their most polished, never-miss material and provided it in video for our meeting planners. A research assistant outfitted each planner with a dial connected to a computer. As the videos were played the meeting planners turned the dial to match their mood. It was close, but hey, we're talking the best of the best!
